

Introducing Rubrik Enterprise Edition: The Comprehensive Ransomware Remediation Solution

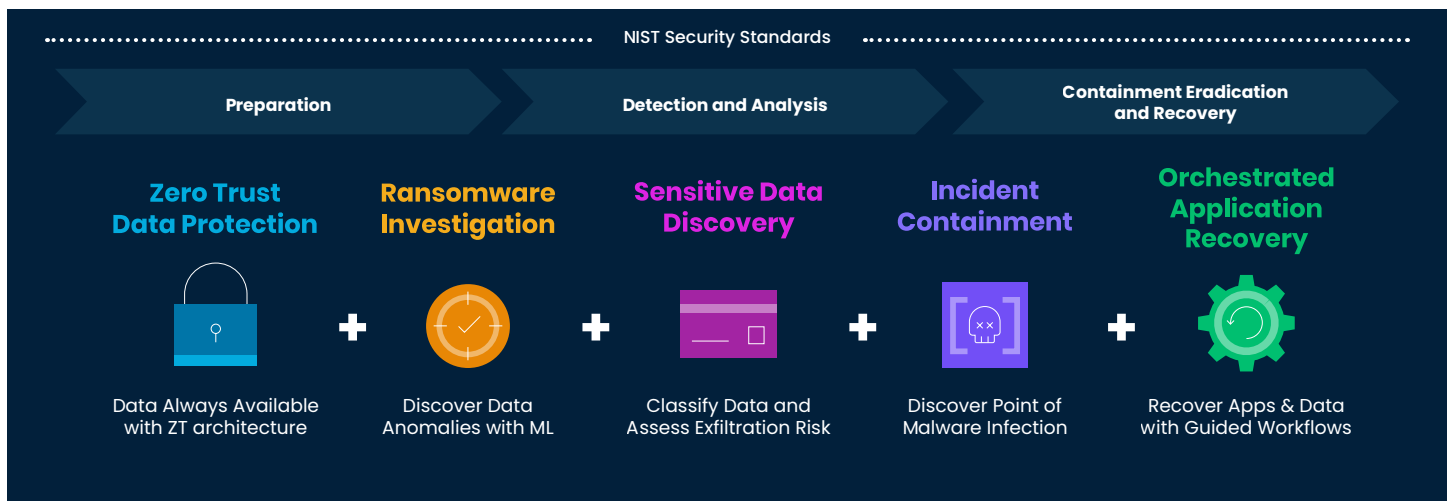

Rubrik Enterprise Edition delivers the complete ransomware remediation and includes multiple data protection options with a single subscription license. With Enterprise Edition, you get the resiliency against ransomware that makes it easier and faster to recover from a ransomware attack while also identifying your sensitive data exposure. Rubrik Zero Trust Data Security™ helps ensure your backups are safe from attack and cannot be compromised by ransomware.

Identify scope of impact: See how your data has changed to quickly identify what was impacted where, allowing you to analyze the overall threat impact. By leveraging machine learning, you can detect and receive alerts on anomalous behavior, and quickly start the recovery process of your most critical applications. Use multiple recovery options to get your applications and data back to the most recent clean state.

Scan for malware: Gain an additional layer of detection that is independent of the production environment, and thus resistant to attacks that compromise the primary anti-malware solutions. Scan your backups for indicators of compromise to understand which systems have been potentially impacted by an attack in order to avoid malware reinfection.

Reduce sensitive data exposure: Identify whether any sensitive data has been breached and prioritize remediation plans with no impact to production. Create a robust compliance policy from a custom or pre-defined template, report on policy violations and track compliance progress.

Accelerate ransomware recovery: Rubrik now takes ransomware recovery to the next level with fully orchestrated VM recovery to a secondary site or to VMware Cloud on AWS. Now you can define application blueprints ahead of time to ensure VMs get back online quickly and in the right sequence. With Enterprise Edition, Rubrik will help you secure your backup data and give you the essential tools to react to an attack.

OVERVIEW OF RUBRIK ENTERPRISE EDITION SOFTWARE

	ENTERPRISE EDITION For organizations that need comprehensive ransomware remediation
CDM (Cloud Data Management) Backup & recovery, replication, cloud archiving and instantiation, search, and analytics built on a zero trust file system with logical air gap	✓
Ransomware Investigation (Radar) Analyze what data has been impacted in a ransomware attack and determine blast of radius	✓
Incident Containment Scan for malware and compromise to avoid malware reinfection, and drive threat hunting workflows from SOAR solutions	✓
Sensitive Data Discovery (Sonar) Assess data risk and exfiltration via an automate classification engine and pre-built analyzers	✓
Orchestrated Application Recovery (AppFlows) Orchestrated recovery playbook to get your application to the nearest clean state, with sequencing order and recovery type	✓
Universal Cloud Licenses* Migrate and secure your public cloud infra, workloads, and applications via a single pane of glass	✓
Rubrik Cloud Vault (Promo) Archive with a logically air-gapped and fully-managed service to reduce data risk and complexity	200TB (Backup Tier)

* Please note that cloud workload protection included in Rubrik subscription bundles are only for workloads migrating from on-premises to the public cloud. Universal Cloud Licenses are available as an add-on to protect workloads residing in public cloud from the onset of the subscription term.

HOW RUBRIK LICENSING WORKS

Rubrik subscription licenses are offered as a 3-year subscription that includes software, hardware of your choice and support. Throughout the Rubrik subscription, you will receive access to Rubrik's new software features. All Rubrik subscription licenses can be transferred to the cloud during the term of the subscription at no additional license cost. Cloud licenses in Rubrik editions are eligible only for cloud migration use cases. Renewal prices are predictable, which means no surprises at renewal time.

BENEFITS OF RUBRIK

- **Archive with Rubrik Cloud Vault, On Us:** Archive securely with 1 year promo of free 200TB Rubrik Cloud Vault with Enterprise Edition.
- **Future proof for cloud:** Move to the cloud non-disruptively with cloud-native protection bundled into the Rubrik subscription.
- **Flexible annual payments:** Meet your budget with flexibility to pay in fixed yearly installments.

Rubrik, the Zero Trust Data Security Company™, delivers data security and operational resilience for enterprises. Rubrik's big idea is to provide data security and data protection on a single platform, including: Zero Trust Data Protection, ransomware investigation, incident containment, sensitive data discovery, and orchestrated application recovery. This means data is ready at all times so you can recover the data you need, and avoid paying a ransom. Because when you secure your data, you secure your applications, and you secure your business.
