

Data Management Built for Healthcare

Simplified Protection For Your EHR and Enterprise Data

Rubrik provides a simple, fast and cost-effective backup and recovery solution purpose-built for healthcare. Seamlessly capture, protect, and backup Epic EHR and enterprise workloads across your hospitals and clinics with a single data management platform.

- **Electronic health records:** Protect your Epic EHR environment, from Caché to Clarity.
- **Healthcare clinics:** Centralize data management across hospitals and clinics into one interface.
- **Enterprise data:** Automate protection of enterprise data with minimal daily management.

Rubrik integrates data protection, catalog management, and deduplicated storage into a single software platform to simplify operational management and reduce data center costs. Native immutable snapshots and intelligent data change detection accelerate recovery from ransomware. End-to-end encryption keeps you in compliance with HIPAA regulations.

ACCELERATE HIPAA COMPLIANCE

Protect patient data with end-to-end encryption. Ensure privacy and integrity with role-based access control.

DEFEND AGAINST RANSOMWARE

Prevent data loss with native immutable snapshots. Recover faster with visibility into how data changed during an attack.

SAVE 30-50% ON COSTS

Shrink data center footprint and reduce costs. Avoid expensive regulatory fines.

USE CASES

SIMPLIFIED BACKUP AND RECOVERY

Rubrik's backup solution delivers near-zero RTOs for VMs, SQL, and Oracle databases. Stop spending time managing backup jobs, and start automating backup policies. Search for VMs, physical databases and applications, and files with Google-like ease.

DATA SECURITY AND RANSOMWARE DEFENSE

With Rubrik, all your applications and data are stored in an immutable format, preventing ransomware from accessing and encrypting your backups. Deliver 1-click recoveries with AI-driven insights into how your data had changed during an attack.

DATA ARCHIVAL AND DISASTER RECOVERY

Rubrik makes it easy to manage archival of your clinical and business data, whether it needs to be stored on-premises or in the cloud. Instantly locate your data with global search. Reduce the cost of long-term data retention by archiving to the cloud. Be prepared for disaster recovery with failover to a secondary data center or to the cloud.

HIPAA COMPLIANCE AND REPORTING

Rubrik’s comprehensive data management platform helps you address rigid data protection policies regarding protected health information (PHI) and personally identifiable information (PII). Rubrik’s encryption at-rest and in-flight comply with HIPAA requirements. Deliver custom visual reporting on retention, compliance, and capacity.

AUTOMATION AND SELF-SERVICE

Rubrik’s RESTful APIs integrate seamlessly with any third party service to automate configuration and orchestration management. Easily plug into Puppet, Chef, Ansible, or SaltStack to accelerate large-scale deployments. Simplify daily management with self-service through ServiceNow and VMware vRO/vRA.

TRUSTED BY LEADING HEALTHCARE ORGANIZATIONS

“We need to support the hospital as the number of physicians increases and the data sets change. Rubrik makes it easier to adapt and grow as the healthcare industry changes.”

Daniel Belanger
IT Manager

“We were thinking of Ransomware protection separately from our backup and recovery issues, but Rubrik allowed us to solve both in one fell swoop.”

Chris Williams
Director of IT

“With our previous vendor, our backups were taking eight hours to finish, whereas with Rubrik our backups take less than an hour and our restores are near-instant.”

Lev Goronshteyn
CTO

“HM Hospitaless is a patient-focused group. Rubrik delivers the agility and simplicity required to support our patients and our business.”

Arturo Gordo Carbajo
Director of Security and Systems
