

M365 Enablement Accelerator

(RBK-PS-M365-ACCL or RA-PS-PMA)

AT A GLANCE

The Rubrik M365 Enablement Accelerator is designed to expedite the integration of Rubrik Security Cloud as well as configuration of M365 workload protection. Rubrik Professional Services will conduct a workshop to define technical requirements and understand the existing environment. The output of the M365 Enablement Accelerator will be an integrated Rubrik Security Cloud solution, enabled protection for M365 objects, and demonstrated recovery processes.

This service is limited in deployment activity and is intended to teach customers how to best manage and deploy M365 policies themselves.

BENEFITS

- Leveraging best practices, create and deploy a Rubrik protection strategy for M365 environment(s) utilizing the expertise of Rubrik Professional Services
- Further enable Storage/Backup Administrators to configure and operate Rubrik environments
- Protect up to 10 M365 objects in 1 tenant with defined SLA policies
- Demonstrate recovery processes

ROLES AND RESPONSIBILITIES

Rubrik Professional Services

- Review and/or configuration of Rubrik
- Rubrik Security Cloud deployment and configuration
- Hands-on knowledge transfer

Customer Systems/Software Engineer

To ensure optimal delivery of services, customers are responsible for the following:

- Provide proper permissions for Rubrik Security Cloud to access customer cloud accounts
- Provide Rubrik Professional Services with the required level of access to the customer development environment to produce and test tasks required

KEY ACTIVITY AND OUTCOMES

ACTION	RESPONSIBILITY	OUTCOMES
Kickoff Planning Call <ul style="list-style-type: none"> • Define possible limitations and constraints • Consolidate project scope 	Rubrik Professional Services, Customer relevant teams (Infrastructure, Backup, etc.)	→ Engagement summary
Deployment of Rubrik Security Cloud Solution	Rubrik Professional Services, Customer Systems Administrator(s)	→ Authentication with CDM (if applicable) → Rubrik Security Cloud Enablement walkthrough
M365 Protection	Rubrik Professional Services, Customer Systems Administrator(s)	→ Template/Script deployment permissions → Sync with Rubrik → Configure SLA policies → Enable protection → Discuss and demonstrate different recovery processes

EXCLUSIONS/LIMITATIONS

- Up to 10 M365 objects in 1 tenant across Rubrik supported M365 product lines
- Only integrate Rubrik Security Cloud features required for M365 configuration
- On-prem CDM deployment requires Rubrik Installation Services sold separately

TERMS AND CONDITIONS

Please refer to the [PS Terms and Conditions](#) for the terms and limitations of these services.

SCOPE AND PRICING

For more information about scope, pricing, and/or technical prerequisites, please contact your local Rubrik representative.

ABOUT RUBRIK PROFESSIONAL SERVICES

Rubrik Professional Services transforms possibilities into outcomes. Our portfolio of services uncovers and leverages the unique opportunities made possible by Rubrik technology. Drawing on our unparalleled product expertise and customer experiences, we collaborate with your team to identify and address technical challenges, improve operational efficiency, and maximize your investment in Rubrik.

Rubrik is a cybersecurity company, and our mission is to secure the world's data. We pioneered Zero Trust Data Security™ to help organizations achieve business resilience against cyberattacks, malicious insiders, and operational disruptions. Rubrik Security Cloud, powered by machine learning, delivers data protection and cyber resilience in a single platform across enterprise, cloud, and SaaS applications. Our platform automates policy management of data and enforcement of data security through the entire data lifecycle. We help organizations uphold data integrity, deliver data availability, continuously monitor data risks and threats, and restore businesses with their data when infrastructure is attacked.
