

Rubrik and Accredited Partners Consulting Services

World-Class Support Committed to Your Success

Rubrik and Rubrik's accredited partners offer Consulting Services to help your organization optimize technology deployment and realize full advantages from integrated services. In addition to providing value-based services from design to configuration, Rubrik and accredited partners offer consultants to facilitate integration of various features into your Rubrik environment. Backed by a world-class support team, Rubrik's engineers and accredited partners are committed to utilizing best practices and tools to ensure that your organization extracts maximum value from your Rubrik solution.

INSTALLATION AND CONFIGURATION

Consulting Services offers a comprehensive portfolio of installation services tailored towards your organization's environment. Based on deployment size and requirements, Rubrik and/or accredited partners will outline a predictable service scope and suitable pricing model. Leveraging deep technical expertise, Rubrik engineers and accredited partners will collaborate closely with your IT team to design and plan your installation requirements, install and configure your Rubrik appliance and software, as well as deliver as-built documentation and a knowledge transfer session.

RESIDENT ENGINEER CONSULTING SERVICES

To help you further optimize your deployment, Rubrik also offers Resident Engineer Consulting Services, in which a technical field engineer will work closely with your IT team on-site to help improve your capacity utilization and maximize your ROI through a months-long engagement.

ADVANCED INTEGRATION SERVICES

In addition to installation optimization, Rubrik and accredited partners also provide specialized support services around integration and configuration of various features, including ServiceNow, vRA / vRO, Oracle, SQL and cloud services such as AWS / Azure and CloudOn.
